Want more? Advanced embedding details, examples, and help! The actual 'Life' is fairly short (44 pp.) and, as the notes show, contains several factual errors. Giorgio Vasari's main appeal lies in his ability to make the world of painting, sculpting, etc. seem incredibly exciting, but in doing so he tends to give short shrift to the quotidian aspects of artistic life. Vasari presents Leonardo da Vinci as a divinely inspired genius, whose imagination was so perfect that his craftsmanship could never completely reproduce his visions in the real world: he is perhaps the greatest artist of his age. Some of his works were unfinished, and some are only rough sketches (though impressive), and one of his acclaimed masterpieces, the Mona Lisa, whose subject is 'very beautiful' according to Vasari (and others), seems dull today, at least to my eyes. Further, although Vasari highlights some of Leonardo's personal qualities, there are a few things that he left out (or had to leave out), such as the artist's homosexuality and his heretical qualities, although the latter are mentioned briefly by Vasari. A more critical biography is therefore desirable to modern readers - and Walter Isaacson, from what I understand, has provided this. Why this new edition, then? Martin Kemp, one of the world's leading authorities on Leonardo da Vinci, has taken the trouble to present a full version of the life, consolidating the 1550 and 1568 texts, which are quite different (with useful, not distracting, colour coding throughout to show which is which). Also, it is a fresh translation (with Lucy Russell), and a lot of the works that Vasari refers to are beautifully reproduced throughout the book (one of my main frustrations with the complete Lives is not having ready access to the paintings etc.). Thus, this is the best English-language edition of the life. More than that, however, Kemp's introduction, as long as the life, carefully delimits Vasari's knowledge of Leonardo and helps situate the work in modern art criticism. This, combined with the quality of the book itself (hardback, sewn binding, high-quality paper and printing, etc.), makes for a worthy edition of Vasari - and could even open the door for more lives of this calibre. (A complete Lives, in a fresh translation, with delineated texts and pictures throughout: a perfect vision, indeed, but can Thames & Hudson reproduce it in the real world...? God, I hope so.) ...more Download & View VASARI, Giorgio. Vidas dos artistas.pdf as PDF for free Sorry, this document isn't available for viewing at this time.
